

Heavy Duty 3rd Members

Randy's Ring & Pinion has complete heavy duty third member assemblies for Race Cars, Passenger Cars, American Trucks, Toyota Trucks, and Toyota Land Cruisers in stock and ready to ship today.

Randy's stocks complete third members for most popular ratios, or can custom build a differential for your specific needs in one day. They have ratios from 2.47 to 6.50, and they offer a huge selection of lockers and positractions, as well as standard open differentials. Traction options include: Detroit Locker, Truetrac, Eaton, Lock-Right, Auburn Gear, TRD, Powr-Lok, and ARB. All third members are assembled in house by expert technicians. They use high-quality Yukon Gear ring & pinions and Timken bearings. Randy's also offers heavy-duty options like Nodular Iron or Aluminum dropouts, Daytona or oversize pinion supports, heavy duty forged or billet yokes, and safety wired bolts.

All components are also offered separately. Randy's Ring & Pinion has a HUGE inventory with thousands of gears, axle shafts, axle bearings, positractions, lockers, installation and bearing kits, as well as hard to find small parts such as washers, bolts, clips, shims, and yokes.
