FOR RELEASE JUNE 28, 2002

Heavy Duty Housing Spreader

These heavy-duty American made housing spreaders are versatile and they are designed to last under the abuse of every day use at a rear end repair shop.

The housing spreader makes getting carriers in & out a snap. This tool is built extremely strong and should have very little, if any, flex when used. All fasteners used on tool are grade 8. This spreader works on any Dana 44, Dana 60, Dana 70 and Dana 80 differential. Randy's Ring & Pinion carries many other tools from Dial Indicators with stand to Inch Pound Torque Wrenches.

Editor's Contact: Dianna Lyn, at (800) 291-1360 ext. 5516, or visit our Web site at <http://www.ringpinion.com>.
