

Randy's Ring & Pinion has hard to find yokes in stock

Randy's Ring & Pinion has 7290 and 1350 series yokes for 8-4/4" Mopars in stock and ready to ship today starting as low as \$37.00 and going up to \$98.67.

These yokes are available for both fine (29) spline and coarse (10) spline pinions. They are made from heavy-duty forgings and most applications use super strong u-bolts instead of wimpy straps. Randy's also stocks the smaller 7260 yokes in fine and coarse spline, as well as a complete line of conversion u-joints to adapt small 7260 Chrysler to large 7290 Chrysler. They also carry conversion u-joints to adapt many Ford and General Motors applications to Chrysler yokes or drive shafts for those who have crossbreed vehicles.

Randy's Ring & Pinion also carries a complete line of yokes for 7-1/4", 8-1/4", and 9-1/4" rear ends, as well as yokes for Dana 44's, 60's, 70's, and 80's.

For any differential parts needs, call Randy's for fast, professional, and courteous service on the country's widest selection of differential parts.
