

Ring & Pinion

Randy's Ring & Pinion has the all-new Eaton Elocker!

Randy's Ring & Pinion is proud to announce the arrival of the new Eaton Elocker. The Elocker uses an Electromagnet to apply force to a Ball Ramp mechanism. The Ball Ramp pushes locking pins into the back of the side gear giving you 100% traction. Imagine, with the push of a button, the Elocker puts the driver in control of traction! The ELocker is easy to install, simple, reliable, and needs no compressor to run. It is extremely strong and designed to last hundreds of thousands miles. Call Randy's Ring & Pinion at 1-800-291-1360 for a great price on the all-new Eaton Elocker and the most complete line of lockers and Eaton positrations anywhere.
