FOR RELEASE JUNE 28, 2002

Toyota V6 Ring & Pinion

Randy's Ring & Pinion has a HUGE inventory of Toyota V6 Ring & Pinion sets. These fit any V6 factory case without any additional shimming or special modifications, and they are easy to install due to the good contact patterns. These V6 Ring & Pinions use a stock shim pack, have a thicker pinion head, which is a true 1-5/8" compared to a 1-1/2". Made of high quality 8620 alloy steel here in the USA, these Ring & Pinions are stronger than many import designs. Randy's Ring & Pinion has 4.88 and 5.29 rations in stock and ready to ship to your door today. Call Randy's Ring & Pinion at 1-800-291-1360.

Editor's Contact: Dianna Lyn, at (800) 291-1360 ext. 5516, or visit our Web site at <http://www.ringpinion.com>.
