FOR RELEASE JUNE 28, 2002

Yukon Pinion Depth Gauge

Randy's Ring & Pinion now has Deluxe Pinion Depth Setting Tools. This precision depth-setting tool allows you to set the pinion depth by measurement rather than by pattern only. Made with high quality aluminum and steel parts this tool has a hard plastic case for easy storage. Priced to sell and designed to last, these depth tool sets work for a huge variety of rear end models and will last for years. Models covered include Dana Spicer models 25, 27, 28, 30, 35, 44, 50, 60, 61, 70, 80, GM models from 7.2" to the 10.5" 14 bolt, Ford 7.5" to 10.5", Chrysler 7.25" to 9.25". Randy's Ring & Pinion also stocks a wide variety of specialty tools for setting up and rebuilding rear ends, as well as the country's largest selection of high performance and OEM replacement parts.
